EFFECTIVE TEACHING

DEEP LEARNING THROUGH INQUIRY BASED APPROACHES TO INCREASE STUDENT AGENCY:

Collaborative Planning to embed inquiry & play based learning.

Educators will work together to strengthen intentional, inquiry-based pedagogies to increase consistent language and student agency across the site

EFFECTIVE LEARNING

HIGH IMPACT TEACHING STRATEGIES THROUGH TEACHER LED INITIATIVES:

Intentional learning design to promote metacognitive strategies and achieve student centred, visible learning

Educators will focus on the intentionality in learning designs to develop student's metacognition and metalanguage so students can better rationalise and articulate learning.

All educators deeply understand the intent and purpose in their practice and can professionally challenge and be challenged.

All learners understand the intent of learning and are able to articulate their own learning journey and needs as a learner.

Our local community understands the vision and mission of the school.

In South Australia, we've declared a new purpose for public education:

"To nurture, develop and empower all children and young people with the knowledge, skills and capabilities they need to become fulfilled individuals, active, compassionate citizens and lifelong learners."
